Education

- 2012 - 2015 **Master's Degree in Wind Energy Eng.** Denmark's Technical University, Copenhagen
Relevant courses: Micro Meteorology for Wind Energy, Advanced MATLAB programming, Wind Turbine Technology and Aerodynamics, Wind Turbine Aeroelasticity, CFD.
Title of the Thesis: "Simulation and Analysis of Offshore Vertical Axis Wind Turbines using Object Oriented Programming". Supervisor: Martin O.L. Hansen.
- 2004 - 2011 **Diploma in Mechanical Engineering** Aristotle University of Thessaloniki, Greece
5 year degree MEng: 300 ECTS Credits (180 ECTS: General Competence, 120 ECTS: Specialization in Energy Engineering).
Relevant courses: Statistics, Numerical Analysis, Introduction to Computer Science, Industrial Management, MATLAB.
Title of the Thesis: "Green Roof Installation and its Energy Effect on two Types of Urban Blocks of Flats".
- 2009 - 2010 **Erasmus Programme** Budapest University of Technology and Economics, Hungary
European Community Action Scheme for the Mobility of University Students.
Faculty of Mechanical Engineering.
- 5/15-11/15 **Data Science Specialization** Johns Hopkins University
A sequence of courses from Coursera. Verified Certificates: Developing Data Products, Practical Machine Learning, Regression Models, The Data Scientist's Toolbox, R programming, Getting and Cleaning Data, Exploratory Data Analysis, Statistical Inference, Reproducible Research.
- 10/15-Pres. **Big Data Specialization** University of California
A sequence of courses from Coursera. Verified Certificates: Introduction to Big Data, Hadoop Platform and Application Framework, Introduction to Big Data Analytics.
- 12/15-Pres. **Machine Learning Specialization** University of Washington
Verified Certificates: Machine Learning Foundations, Regression

Experience

- 11/15 - now **Data Scientist** RelinkLabs, Copenhagen
Data Scientist in RelinkLabs, a start-up company based in Founders House. Responsible for cleaning, normalizing and merging data as well as Predictive analytics using Natural Language processing and Machine Learning.
- 10/11 - 9/12 **Greek Army** Compulsory Military Service
Radar Operator in Air protection system.
- 1/11 - 9/11 **TOMI School** Private School for university students
Teacher assistant for MATLAB exercises and assignments for engineering students.
- 7/9 - 9/09 **Makedoniki Energiaki S.A.** Photovoltaic Installations
Internship through National Framework. Assistant in planning PV installations using Skelion.

Projects

- 11/14 - 7/15 **Wind Turbine Contest 2015** Delft University, Netherlands
Participated in the Contest that took part on July 2015 in Delft University. Involved in the designing, manufacturing of a wind turbine. Member of the team representing DTU.
- 3/15 - 5/15 **Wind Farm Data Analyser** Lyngby, Denmark
Design and development of a tool to filter, analyse and output statistical results for wind data. Furthermore, it has the functionality to evaluate the efficiency of the input Wind Farm.
- 10/14 - 2/15 **PreFVAWT: Preliminary Tool** Lyngby, Denmark
Design and development of a Preliminary Tool, with graphical user interface, for simulating aerodynamics and the motions of Floating Vertical Axis Wind Turbines using MATLAB.
- 08/13 - 9/13 **Project in Wind Energy Integration in Greenland** Nuuk, Greenland
A wind farm planing was conducted, including wind resource estimation, integration of wind power to the current grid and risk analysis as well as Environmental Impact Assessment (EIA).
